2 Service

2.1 Description

Collabor8 EqHub (hereafter called EqHub) is an industry initiative from NOROG on behalf of all operators on the NCS. The purpose of the EqHub service is to support and simplify information and documentation delivery processes through standardization. EqHub is a collaborative solution for sharing of technical standard information and documentation. The Solution is used by:

- Operators on the NCS
- EPC Contractor
- Package Suppliers
- Equipment Suppliers
- Manufacturers

For more detailed descriptions of the service see www.collabor8.no/eqhub/.

2.2 Access management

Refer to www.collabor8.no/eqhub/.

2.3 Support

Support contact info is available on www.collabor8.no/eqhub/.

2.4 Service level

2.4.1 Availability

NOROG's goal is that the service should be available at all times, except for during standard maintenance windows.

2.4.2 Standard Maintenance window

Standard Maintenance windows (planned maintenance) are used for carrying out technical and functional updates.

- Technical updates: Typically performed monthly, with the goal of not affecting the availability of the service.
- Functional updates: Performed in relation to releasing new functionality in the service. Maintenance notifications are published on the service login-page and/or in e-mail to the Users minimum 7 days in advance.
