1 Introduction

This document describes how Offshore Norge ("we") handle your personal data within the Collabor8 Hello service (hereafter called Hello) based on you being a User of the service.

Privacy principles that are common to all Offshore Norge Collabor8 services, which therefore also applies to this Service, are described in the *Collabor8 - General Privacy Policy* available at www.collabor8.no/privacy-terms.

Words in this document with capitalized initial have their definition stated in the definition and abbreviations section in either the General terms or the Hello Special terms, both available on www.collabor8.no/terms-of-services.

2 Which personal data do we collect?

We collect personal information in connection with Hello sign-up process, and your subsequent use of your Hello account when you interact with Services integrated with Hello. Below a description of the categories of personal data we collect.

Account information

When you create a Hello account and do updates to your Hello account via www.hello.collabor8.no/ you actively provide information about yourself. This information includes:

- Name
- Organisation (employer)
- Personal company e-mail address
- Mobile number (optional)
- Office phone number (optional)
- Account status
- Unique non-sensitive reference to the 3rd party authentication solution you desire to use to prove your identity for recurring use of your Hello account, e.g. Norwegian Bank ID.

If your organisation has implemented an automatic integration towards Hello (federation), your personal information will be automatically provided by your User organisation, and you will not be able to modify your Hello profile data yourself. Please contact your organisation and request updates to your user information when/if required.

Data collected when you use your Hello account

- **In data exchange between you and the 3rd party authentication provider**

Part of the sign-up process and for recurring log-in to your account Hello use trusted 3rd Parties to confirm your identity, e.g. Norwegian Bank ID.

The authentication process with trusted 3rd Parties is handled as a secure data exchange directly between you and that Identity provider. Hello will only receive the result of the Authentication that does not include sensitive information, but typically only your name and the result of the Authentication attempt (success/failure).

- **Information about the use of your Hello account towards integrated services**

We register information about login and logout on your Hello account. We also register limited information about which Offshore Norge services you access using your Hello account as log-in method.

- **Technical information about your device and internet connection**

We use server logs and other tools to record technical information about your device, connection to our Services and cross-device usage. This information typically includes operating systems, web browser versions, IP addresses and session-based authentication cookies, and unique identifiers.

- **Cookies and other technologies that store data locally on your device**

When you use Offshore Norge services that make use of Hello for log-in purposes, we use different technologies to recognize you as a User and provide a seamless access to the services. For example, we use cookies, so you do not have to log in again every time you visit an application using Hello.

3 How do we process your personal data?

The personal data we collect are processed as a part of:

Account sign-up process

for us to be able to support secure establishment of your personal Hello account.

Recurring log-ins

where Hello will use your personal data as part of authentication requests, we receive from application services using Hello for authentication purposes.

Managing security by

- verifying your identity part of sign-up process and recurring use of your Hello.
- automatic monitoring of your Hello account activities to help you and your User organisation to prevent abuse of your Hello account and following access to Services using Hello as part of their log-in process.

Service improvement

where we may aggregate and analyse and improve the performance of the Hello service, but where your data is anonymized in advance.

Providing you support and guidance, including to:

- Provide you efficient support via service desks.
- Help diagnose problems reported by you to the service desk.
- Inform you about possible compatibility issues with your end-user equipment, e.g. the browser type you use.
- Sending you important information, e.g. in case of service unavailability, or important information about new features and/or functionality.

For our and your employer (User organisation) legitimate interests, including to:

- Deliver Hello in compliance with requirements between Offshore Norge and your company as available on www.collabor8.no/terms-of-services.
- Performing our obligations set forth by applicable law and regulatory authorities.
- Ask you to on regular basis reconfirm your need for a Hello account to support your User organisations leavers processes to ensure Hello accounts no longer needed are closed down as soon as possible.

4 Do we share your personal data?

Except as described in the Agreement or above, personal data will not be transferred or provided to any third parties.

5 Transfer of personal data to third countries

Except as described in the Agreement or above, personal data will not be transferred or accessed from outside the European Economic Area (EEA).

6 Do we retain your personal data?

We keep your Hello account data, including change history, for as long as your account is active. If your account is deleted either by a Hello administrator in your company or by yourself using the “Delete me” functionality available from your personal Hello profile available at www.hello.collabor8.no, your Hello account will be immediately deleted.

Other types of personal data collected as described in section 2, including backups of such, are kept for up to 12 months. This is to assure that Hello can:

- Provide support to applications using Hello for authentication purposes, e.g. part of investigations concerning possible misuse of application access.
- Support investigations concerning unlawful acts where Hello accounts are deliberately or mistakenly deleted by parties other than the account holder or an Hello administrator in your organisation.
- Support controlled phase out of your account when deleted.

Each application using Hello for authentication will typically also store logs of your user activities. For details about logging done by each Hello integrated application please refer to that application’s privacy policy.
